Organization Description/Mission/Purpose:

The mission of Arkansas Interfaith Power and Light is to educate and energize diverse faith communities to care for God's creation and work toward climate justice.

Description of the problem or need:

IPL at national level provides free website but no technical support. We need an overhaul. We need to keep online giving function. We need a way for houses of worship to fill out forms if they want EV charging stations, a community garden, an energy efficiency project, climate voter discussion guides, solar installations, presentations to classes or groups. We need to be able to quickly post news.
