Organization Description/Mission/Purpose:

Our goals are to promote tourism, educate the public and foster an appreciation for the sacrifices made by local men and women defending our country, both on and off the battlefield. Just as important is our mission to preserve artifacts for future generations' enjoyment and enlightenment.
We are a 501-c3

Description of the problem or need:

Website is out of date. It was put together by a volunteer that had no training and was just trying to help out. We have had our doors open for 15 years this year! We could use a little updating and sophistication.
